

Access NextStep Clinical on a Tablet

Last Modified on 10/25/2021 8:09 am EDT

About

You can access NextStep Clinical from a tablet, but it is not optimized for mobile use. It is recommended to follow the steps below in order to maximize the view of the application on-screen.

Access NextStep Clinical on a Tablet

1. Open the internet browser/app on your tablet.
2. Enter your NextStep site URL.
3. Activate Request Desktop Site:

- **Chrome:** click on the 3 dots in the upper right hand corner  and select **Request Desktop Site**.
- **Safari:** click on  on the left of the URL bar and select **Request Desktop Website**.

Note: For Safari you can also click the **Hide Toolbar** option after clicking on .

4. After the website reloads in desktop view, click the **menu button** in the Navigation Menu to collapse the menu to give the application more room on the screen.
