Path: Navigation Menu > DRFIRST - REPORT

About

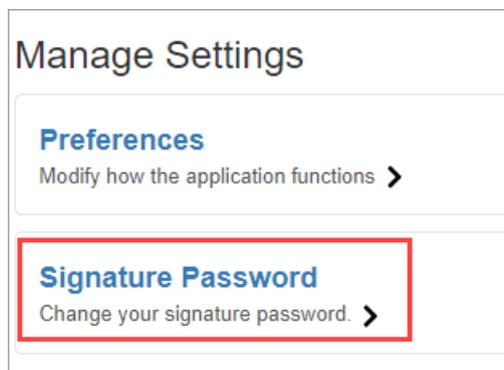

You can change your Signature Password under Settings within DrFirst.

Reset Signature Password

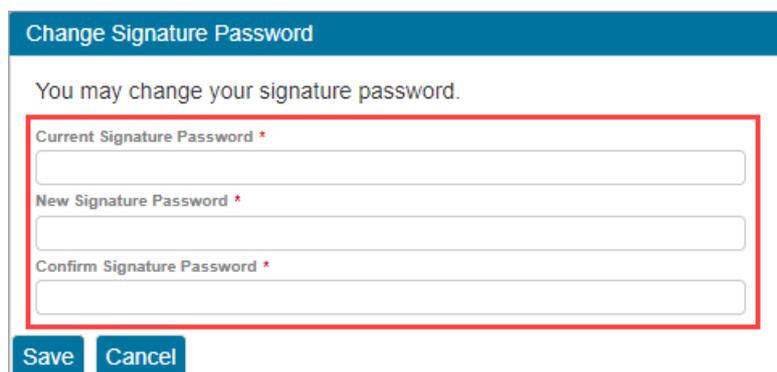

1. Navigate to DrFirst by following one of the paths above.
2. Click the **Menu** button in the upper left-hand corner.

3. Click **Settings**.
4. Click **Signature Password**.

5. Enter the following: **Current Signature Password**, **New Signature Password**, and re-enter your new password into the **Confirm Signature Password** field.

6. Click the **Save** button.
