

Post-Release Support Trend Updates

Last Modified on 12/22/2021 8:21 am EST

This article is updated in near real-time to include release-specific topics and workarounds, if available.

Important Notification

We recommend checking this document before calling our Support team. If your issue is listed, **please email our Support team and include the link to this article**. Following these directions will help us to notify our Development team of the impact and keep you informed as the case progresses through our development process.

To quickly find the text you want in this list:

1. Press on your keyboard. A search box is displayed on the top-right of your screen.
2. Type the word(s) you're looking for in the search box.
3. Click the **Up** and **Down** arrows to move through results.
4. Click each of the version tabs at the bottom to search through each tab.
