OP Announcing the Acquisition of RemedyConnect and NextStep Solutions

Office Practicum (OP), who acquired NextStep Solutions in 2019, has officially announced its recent acquisition of RemedyConnect, a digital healthcare delivery company that offers ways for providers to attract new patients and expand access to care. Together, our three organizations can provide advanced services to support the full spectrum of care, from foundational early childhood through to adulthood. We believe healthy parents are better equipped to raise healthy kids. Supporting the behavioral health needs of adults is critical to their success.
