Note: The functionality to have Standardized Demographic fields has been developed and will display on the Face Sheet in version 10.5.1. Please see **Map Existing Demographic Fields/Values to Standard Demographic Fields/Values** for more details.

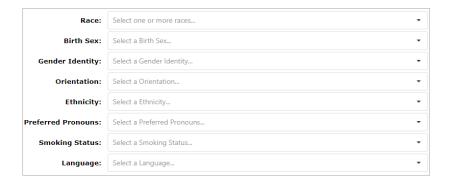

About

The Face Sheet displays standardized demographic drop-down fields to be filled in when adding a new client. These fields are not editable by the Agency and will be used for reporting, including Cures Act/Meaningful Use. An Agency is able to create sub and subsub demographic choices to be selected under the standardized demographic drop-downs.

Create a Sub Demographic Choice

Under the standardized demographic drop-down fields, Admin users can create sub choices to select on the Face Sheet. These choices will allow you to specify specific demographic details about the client.

- Navigate to Demographics Configuration: Main Menu > Admin Tools Menu > System Setup (Supplemental) >
 Demographics Configuration.
- 2. The standard demographic sections are displayed. Click the demographic section to expand the list.
