# Outcome Based Care and Care Quality Webinar

Last Modified on 10/25/2023 2:29 pm EDT

## About

In this workshop, Darrin Hanna, PhD and David Ballenberger, MSW will discuss improving treatment planning templates to be more function-based and measurable to provide better outcomes to clients and prepare for value-based payment.

They'll delve into the advantages of using a function-based treatment planning model and will present a case study in NextStep, including a function-based treatment plan, charts, assessments and outcomes.
