<p><b>Activity Code Bundle Setup Enhancements</b></p>	<ol style="list-style-type: none"> <li>Previously, Base Activity Codes could only be added as a single code. Now, they can remain a single code or be added as a grouping of codes.</li> <li>For your convenience, there is a link to the Activity Code Billing Groups setup form if you need to set up an Activity Code Group.</li> <li>Service Count             <ol style="list-style-type: none"> <li>Service Count MIN and MAX will dictate the Bundled Activity Code based on the number of services within the selected date range and filters in the Preprocessor.</li> </ol> </li> <li>Unit Count</li> </ol>

Release 7.7.0

a. Unit Count MIN and MAX will dictate the Bundled Activity Code based on the number of units dispensed within the selected date range and filters in the Preprocessor.

5. The Bundled Activity Code has remained the same. This is the final code on your Line Item to be billed out. It cannot be the same as your Base Code(s).
6. Modifier for the bundled code. This will add on to any other modifiers already set up.
7. Diagnosis for the bundled code. This will override the current diagnosis to become the primary diagnosis billed on the claim.

Additionally, we have added explanations for certain titles when hovering over them while the form is in Edit mode:

- Service Count
- Unit Count
- Bundle Time
- Bundle Units
- Daily
