

NEWTSTED

11.9.11 Release Notes

Last Modified on 08/23/2024 3:45 pm EDT

Estimated Release Date (all agencies): **8/25/2024**

Issues Resolved:

Release 11.9.11	
EOD tag on eMAR Discontinue Date was removed	Fixed an issue in eMAR where Discontinued/End date include "EOD". Since the End date is the date the medication is no longer given, not the last date the medication was given, this "EOD" was incorrect and has been removed.
eMAR screen synchronization issue	Fixed an issue where late passes appeared in the PRN pass section of eMAR. They were never intended to appear there, and sometimes those late passes were not associated with the selected client. This change removes the late passes from the PRN section of eMAR.
