

# NOT YET STARTED

## 11.10.1 Release Notes

Last Modified on 10/06/2024 3:17 am EDT

**Estimated Release Date (all agencies):** 10/6/24

### Issues Resolved:

Release 11.10.1	
<b>eMar showing Late Passes for discontinued meds.</b>	<i>Main Menu &gt; Treatment Planning &gt; eMAR</i> Some medications continued to display Late Passes after they had been discontinued. This has been resolved
<b>Unable to seal notes/forms when billing information is left blank</b>	A problem was reported where some notes and forms could not be sealed if billing information was blank. This has been resolved
<b>Unexpected discharges from Beds</b>	An issue was reported that when a user updated a Program for a client, and that update did not require a Location change, sometimes the client would be erroneously discharged from their bed. This has been resolved.
