7.12.1 Release Notes - Hotfix

Last Modified on 08/19/2025 11:23 am EDT

Hotfix Release Date: **Monday, 05/05/25**

Issues Resolved:

Release 7.12.1	
Internal Error when Posting from the Working Queue	<p><i>Navigation Form > 835 Form > Working Queue</i></p> <p>Previously, users would get an internal error when trying to Post to a client's open line using the Working Queue. This has been resolved. There was also an issue with the Reprocess and Reprocess Selected buttons, causing an internal error if the Working Queue line had no associated remark codes. This issue has also been resolved.</p>
Bundling: Restricting "Base" Line Item Access	<p>New guardrails have been put in place to:</p> <ul style="list-style-type: none">• Not allow auto-posting from the 835 Form on the "Base" Activity Code's Line Item• Not allow the user to edit a "Base" Activity Code's Line Item <p>Additionally, the Line Item Form now has a field labeled Type to display if the line is "Normal," "Base," or "Bundled."</p> <p>NOTE: What was previously known as the <i>Line Item Type</i> is now labeled as the Source.</p>
