7.16.1 Release Notes

Last Modified on 04/29/2026 10:05 am EDT

Tentative GA Release Date: **Thursday, 4/30/26**

Feature Enhancements:

Release 7.16.1	
Update where DWIHN Facility Number pulls from	<i>Maintenance and Setup > Agencies/Provider Network</i> For claim file Format Type 24 and 25 (used by DWIHN agencies), the system will now use the newly added Facility Number field instead of the Provider Number in Master Insurance. DWIHN customers need this loop to populate with the Facility Number, which they could have multiple of, and is attached to an address, rather than a specific payer.
